ABOUT OUR SCHOOL

Our small school of juniors is focused on delivering a play-based philosophy to develop confident, activity-involved lifelong learners and effectively explore learning through self-direction and internal motivation. Cargill Open Plan School enacts child centred and engaging programmes, enabling senior students to inquire, explore their “passions” and investigate their curiosities.

At Cargill Open Plan School we have both open and smaller spaces to suit all learners, well-resourced and teacher aide support in our up-to-date facilities. We are prepared for student agency and highly engaged through self-directed, open-ended inquiry and exploration programmes.
